## HOMESTEAD HILLY FOUR

We had a beautiful day for our race, and we also had our largest turnout for any FWTC race to date excluding the Lincoln 10,000 and the Ft. Wayne Marathon. There were 148 finishers in the four mile and 21 fun runners. We used our new finish board which was donated to us by The Sign Shoppe, 4721 Lima Road. If you need signs made, you might keep these generous people in mind. The new finish board expedited our finish results, however, there were some problems encountered this being our first time using it. We will use this board at all our races in the future excluding our prediction race and one hour run. This board will work much better if the finish line people are roped off or in some way separated from the race finishers until all results are posted. As runners, we must exercise some patience and judgement and allow our finish line workers to complete their results without being harassed by questions by people trying to find out where they finished.

It is also imperative that each runner report immediately to the finish line with his tongue suppressor so that his results can be processed. It is very discouraging for our workers to have to rearrange all the finish results because somebody felt like talking with friends and waited until the last second to report. In the future if people delay unnecessarily, their finish results will not be counted and they will be excluded from awards and points. This may seem harsh, but our races are growing in numbers and in order to facilitate more people we must function more efficiently. With our new system it will not take very long to process your finish results so please help us and be punctual.

We would also like to thank Tom Mather of Tennis, ETC., who for the second time this year has generously donated gift certificates to the FWTC to be presented as awards for our top three finishers in five age divisions. His store has a complete line of running and tennis gear available.
